PROFESSIONAL SUMMARY

Enthusiastic, community focused professional with a HubSpot certification in social media strategy and hands on experience supporting Ghana's shift toward cashless payments. Combines strong writing, communication, and customer engagement skills with a genuine interest in Bitcoin, fintech, and financial literacy. Skilled at explaining new technology to everyday users, building trust within communities, and creating clear, engaging content. Excited to bring this background to growing an online community and helping tell a story of digital adoption and financial empowerment in Ghana.

CORE COMPETENCIES

- Content Calendar Planning
- Community Engagement & Online Support
- Strong Writing & Communication
- Fintech, Digital Payments & Financial Literacy
- Performance Tracking & Reporting
- Customer Relationship Building
- Basic Web Development
- Social Media Management & Content Creation (X, LinkedIn, Facebook, Instagram, TikTok)

PROFESSIONAL EXPERIENCE

Bitfiasi Initiative | Volunteer (Hybrid)

September, 2024- May, 2025

- Retweeted and reposted educational Bitcoin content for Instagram, X, and TikTok to raise awareness around financial literacy and digital money adoption.
- Assisted in coordinating cohort graduation activities, contributing to event logistics and community recognition.
- Participated in outreach programs supporting underserved students through donations and community events.
- Contributed to financial literacy campaigns and awareness efforts for digital financial tools across Dodowa.

Farmlingo | Intern (Hybrid)

September, 2025 - December, 2025

- Developed core backend functionality for the Farmlingo agritech app by implementing CRUD (Create, Read, Update, Delete) operations, forming the data management foundation for features like virtual farm simulations and gamified learning modules.
- Contributed to a mission driven startup recognized at the 2025 Greentech Innovation Challenge, supporting Farmlingo's goal of engaging Ghanaian youth in agribusiness through smart, tech-enabled farming tools.
- Worked with industry standard backend technologies incorporating Node.js for server side logic and PostgreSQL as the relational database, gaining hands-on experience in a real-world product environment as a beginner developer.

Tap and Go Ghana | Cash / Settlement Representative

June, 2025 - March, 2026

- Collected daily transport revenue and maintained accurate transaction records.
- Issued official receipts and ensured proper documentation of all transactions.
- Processed settlements using digital payment applications and systems.
- Assisted customers with payment-related enquiries and transaction issues.
- Supported the implementation of cashless transport payment systems.
- Maintained accuracy, accountability, and professionalism while handling financial transactions.

Anyaa Polyclinic | Lab-Tech NSS

November, 2023 -October, 2024

- Collected and tested human samples, performed diagnostics, and reported results to clinicians.
- Maintained lab equipment following Ghana Health Service protocols..
